

# MT700L Series — Model Guide

Four models, two choices: pick your battery, then your region.

|              | EU BANDS                                | LA BANDS                                |
|--------------|-----------------------------------------|-----------------------------------------|
| Rechargeable | <b>MT700L-EU</b><br>7800 mAh · EU bands | <b>MT700L-LA</b><br>7800 mAh · LA bands |
| 3 × AA       | <b>MT700L-N-EU</b><br>3 × AA · EU bands | <b>MT700L-N-LA</b><br>3 × AA · LA bands |

## CHOICE 1 — BATTERY

|                                      | Rechargeable — MT700L-EU / -LA            | 3 × AA — MT700L-N-EU / -N-LA                                  |
|--------------------------------------|-------------------------------------------|---------------------------------------------------------------|
| Best for                             | Deployments with periodic charging access | Long unattended installs — fit and forget                     |
| Battery                              | 7800 mAh Li-polymer, built in             | 3 × AA 1.5 V Li-FeS <sub>2</sub> (3400 mAh), user-replaceable |
| Battery life (1 report/day)          | 3 years                                   | Up to 7 years                                                 |
| Battery life (10-min smart tracking) | 1.9 years                                 | —                                                             |
| Power upkeep                         | USB-C charging, 5 V / 2 A                 | AA battery replacement                                        |
| In the box                           | Tracker, USB-C charging cable             | Tracker (batteries not included)                              |

## CHOICE 2 — REGION

|                       | EU — MT700L-EU / -N-EU                    | LA — MT700L-LA / -N-LA                  |
|-----------------------|-------------------------------------------|-----------------------------------------|
| 4G LTE Cat 1bis bands | B1 / B3 / B5 / B7 / B8 / B20 / B28        | B2 / B3 / B4 / B5 / B7 / B8 / B28 / B66 |
| Designed for          | Europe, Middle East, Africa, Asia-Pacific | North & Latin America                   |

### IDENTICAL OTHERWISE

All four models share the same hardware and firmware: 4G LTE Cat 1bis, multi-GNSS (GPS + GLONASS + BeiDou + Galileo), GPS + Wi-Fi + LBS positioning, IP68, built-in magnets, tamper and motion alerts, 9 working modes, open protocol (TCP/UDP/SMS), OTA commands, offline data buffering, pre-configuration service, OEM / white label.
